

# The Purposeful Leaders Workshop

Connecting personal and organisational  
Purpose

## WHAT IT IS

Our experience shows that purpose works best when aligned with the work that you do. And we should know. Over the past two years, we have delivered more than 50 Purpose workshops to over 300 people, of all backgrounds and across all sectors. This workshop is for everyone who has a role in leading organisational progress and creating purposeful impact. It enables leaders and managers to explore purpose in the context of their job roles and careers.

At a time when we are more isolated and disconnected than ever before, we need to explore new ways to connect and belong, and find purpose in our work and our lives.

## WHO WE ARE

The Age of No Retirement CIC is a social enterprise, committed to creating an intergenerational world where people live inspired, purposeful and connected lives throughout the entire life course. In 2018 we developed The Common Room – a network of physical places where people of all backgrounds and ages rediscover their purpose, and make real progress in work and life.

100% of our revenues are committed to our social mission - empowering people to live the best lives possible, across their entire 100-year life.

## THE FORMAT

The workshop format has been developed with real people, not academics. It is not a lecture. We cannot teach Purpose. We simply create a safe environment for self-discovery of your full potential.

The workshop flows through 6 stages:

- My place in the world. What is important to me? What matters most?
- My inhibitors. What is getting in the way? How can I realise my potential?
- My super-skills. What am I great at? How can I be even better?
- My Social CV. What is my social value? How can I leverage it?
- My work. How to align fulfilment, authenticity and performance.
- My Purpose plan. Setting personal goals in life and work.

This is an online group workshop. It can be delivered as a single full-day event, or over the course of two half-days. Ideal group size is 6-12 people. A toolkit is emailed to participants prior to the workshop for printing. No other preparation is required.
